PTY-2 (Ayush)	Each 10g Sachet Contains: Vidarikhand 5g	Diuretic, Diabetic nephropathy
Graviola Onco Powder	Each 5g Sachet Contains: Graviola fruit powder 3g Each Capsule contains: Graviola leaf extract 50mg	Anticancer
Onco-Ketogenic Powder	100g Powder Contains: Energy 700Kcal, Total Fat 67.8g, Linoleic Acid 11000mg, Alpha Linolenic Acid 1400mg, Total Carb 6.95g, Total Protein 15.5g, Multivitamin, Multimineral, L-Carnitine 45mg, Taurine 22mg	FSDU - Food for Cancer Management
Kid's Protein supplement Formula with Colostrum	100g Powder Contains: Energy 434.03Kcal, Protein 15.73g, Carbohydrate 58.42g, Sugar 33.04g, Fat 15.27g, Saturated Fatty Acids 8.05g, Monounsaturated Fatty Acids 4.05g, Polyunsaturated Fatty Acids 0.02g, Trans Fatty Acids 0g, Cholesterol 0mg, Fructooligosaccharides 1000 mg, Colostrum 1000mg, DHA 80mg, Vitamins and Minerals	Kid's Protein Supplement with Colostrum

Category	Composition	Product Description
Walter® Relief Z Chewable Tablet	Each Tablet Contains: Dantabija 20mg, Haridra 50mg, Zingier Officinale 5mg, Amla 50mg, Tulsi 5mg, Yashtimadhu mg 10	For cough and cold, Respiratory infections
Herbommune capsule (Ayush)	Each Capsule Contains: Amlavetas (Hippophae Rhamnoides) Fruit Dry Aqueous Extract 125.0000mg, Ashwagandha (Withania Somnifera) Root Dry Aqueous Extract 100.0000mg, Giloy (Tinospora cordifolia) Steam Dry Aqueous Extract 112.5000mg, Tulsi (Ocimum sanctum) Leaf Dry Aqueos Extract 62.5000mg, Neem (Azadirachta indica) Leaf Dry Aqueos Extract 75.0000mg	Immunity Booster
Kid protein supplement Formula 2 with Lactoferin (Vanilla Flavor)	100g Powder contains: Energy 460.36Kcal, Protein 14.10g, Carbohydrate 62.74g, Sugar as Sucrose 26.00g, Fat 17.00g, Trans Fat 0.22g, Saturated Fat 3.22g, Monoun Saturated Fat 7.18g, Polyunsaturated Fat 5.29g, Cholesterol <30mg, FOS 1.58g, Probiotics Vitamins, Mineral	Kid's Protein Supplement with Lactoferin
Protein Sachet with colostrum	5g Sachet Contains: Energy 19.55kcal, Protein 1.6g, Carbohydrates 2g, Added Sugar 0.942g, Fat 0.75g, Vitamin, Colostrum 200mg,	Protein Sachet with colostrum
Lactoferin Chewable Tablet Orange Flavored	Each Chewable Tablet Contains: Lactoferin 100mg	Chewable Tablet with Lactoferin
PLM Protein Powder with Colostrum	100g Powder Contains: Energy 349.5kcal, Protein 26g, Carbohydrate 58g, Sugar 30g, Fat 1.5g, Saturated Fatty Acids 0.9g, Cholesterol 5mg, DHA 20% 80mg, Dietary Fiber 3g, Vitamins & Minerals, Colostrum 1000mg	Protein Powder for Pregnant and Lactating Women with Colostrum
Milk Calcium Chewable Tablet	Each Chewable Tablet Contains: Elemental Calcium 250mg, Vitamin D3 200 IU, L-Lysine Hydrochloride 10mg	Bone & Teeth Health
Milk Calcium Chewable Tablet	Each Chewable Tablet Contains: Elemental Calcium 500mg, Vitamin D3 200 IU, L-Arginine 10mg	Bone & Teeth Health
Diabetic Powder	100g Powder Contains: Energy 423kcal, Carbohydrates 59g, Protein 22g, Fat 11g, Saturated Fatty Acids 1.53g. Cholestrol 3.5mg, Dietary Fiber 11g, DHA Powder (10%) 100mg, L- Carnitine 30mg, Folic Acid 200mcg, Vitamins, Minerals	Diabetic care

Prostate/Prostavin Tablet	<p>Each Tablet Contains:</p> <p>Kanchnaar (Bauhinia Variegata) Bark Extract 10:1 66.67mg, Guggul Shuddh (Commiphora Mukul) Gum Resin 10:1 10% Guggulosterone E & Z 66.67mg, Gokshru (Tribulus Terrestris) Fruit 10:1 20% Steroidal Saponins 66.67mg, Usheer (Vetiveria Zizanioides) Root 5:1 mg, 16.67 Bichchu Buti (Urtica Dioica) Leaf 5:1 16.67mg, Pumpkin (Cucurbita Pepo) Seed 10:1 50mg, Plum (Prunus Domestica) Fruit 10:1 50mg, Ali (Linum Usitatissimum) Seed 10:1 35% Beta Sitosterol 66.67mg, Turmeric (Curcuma Long) Rhizome 10:1 13.33mg, Machika (Tamarix Articulata) Galls Extract 5:01 33.33mg, Shilajit Shuddh (Asphaltum) Exudate 5% Fulvic acid Sunthi (Zingier officinale) Rhizome 5:1 13.33mg, Varun (Crataeva nurvala) Root 5:1 13.33mg, Salai Guggul (Boswellia Serrata) Gum Resin 33.33mg</p>	Supplement for Healthy Prostate

DIGESTIVE	Complete Digestive (A comprehensive Enzyme Supplement for Digestion)	Chewable Tablet, Swallowable Tablet, Capsules	<p>In today's life of stress, gastro-intestinal upsets are very common, disturbing the quality of life. With a good digestive supplement, the gastro intestinal tract irritation caused due to stress is reduced, subsequently improving the quality of life. Enzyme supplements play an important role in the treatment of digestive disorders, particularly with pancreatic insufficiency. Historically, porcine and bovine pancreatic enzymes have been the preferred form of supplementation for exocrine pancreatic insufficiency. Use of microbe derived or plant derived digestive enzymes has shown promise with studies indicating benefit similar to pancreatic enzymes, but at a lower dosage concentration and with a broader pH range (from a pH of 2-10). This enables them to be more consistently active & functional for a longer distance as they are transported through the digestive tract.</p> <p>This Novel Formulation is a digestive enzyme supplement which consists of different fungal and vegetative enzymes designed to supplement the bodies naturally produced digestive enzymes. It consists of Plant Protease, Acid Stable Protease, Fungal Protease, Fungal Lipase, Fungal Amylase, Fungal Lactose and Fungal Hemicellulase & Cellulase fortified with Alpha Galactosidase. The combination of the above enzymes ensures that ingested food is properly hydrolyzed and absorbed. Since the above enzymes are stable and active in both the acid medium of the stomach mid the neutral environment of the small intestine they do not need a special treatment or coating for stability.</p>									
	Gluten Intolerance (Enzyme digestive for Gluten digestion)	Chewable Tablet, Swallowable Tablet, Capsules	<p>A person's inability to digest gluten and Casein leads to digestive and health problems .Gluten basically is a protein that is found in wheat, barley and rye while Casein is one of the main Proteins found in Dairy Products. The underlying issue for people suffering from gluten intolerance is their body's lack or insufficiency of enzymes to digest the offending substances. Incomplete digestion of these proteins damages the villi of the intestinal tract, causing inflammation and digestive discomfort.</p> <p>Gluten Relief Formulation is a blend of enzymes that includes types of proteases that have shown break-down of the proteins in gluten and casein. The formulation contains a variety of proteases, amylase, cellulase and lipase. It supports mild to severe digestive complaints, fatigue, and loss of energy along with providing digestive support for the consumption of gluten. Improves symptoms associated with food sensitivities, allergies, and celiac disease and optimizes the absorption of nutrients.</p>									
	Daily Digestive (Essential Enzyme Supplement for daily digestive support)	Chewable Tablet, Swallowable Tablet, Capsules	<p>This Novel Formulation is a 6-Enzyme Digestive Formulation that takes care of basic Digestion and can be taken by people across all age groups. It consists of basic digestive Enzymes for Carbohydrate, Protein and Fats metabolism along with other enzymes for Anti-Gassing , Cellulose and Lactose Digestion. These enzymes are highly stable in both the acid medium of stomach and alkaline medium of small intestine hence do not need special coating for stability. It can be taken after your daily food intake to prevent or reduce the symptoms. All the enzymes are obtained from vegetative sources and usually does not have any side effects.</p>									
Anti-Inflammatory y & Wound Healing	Anti-Inflammatory Support (Serratiopeptidase - A Potent Enzyme Supplement for Antilnflammatory Support)	Enteric-coated Swallowable Tablet	<p>Inflammation is the complex pathophysiologic response of vascularized tissue to injury. Non-Steroidal Anti-Inflammatory Drugs (NSAIDs) are used to control pain and inflammation; these can cause liver, kidney, and intestinal damage. Serratiopeptidase is a proteolytic enzyme isolated from bacteria Serratia E15 found in silkworms which is able to digest dead tissue, blood clots, cysts, and arterial plaques. It has powerful anti-inflammatory properties and is particularly useful for post-traumatic swelling, fibrocystic breast disease and bronchitis. Clinical studies have shown it to be effective at reducing swelling and edema and metabolizing scar tissue in the body.</p> <div><p>Anti-inflammatory & Analgesic properties of Serratiopeptidase</p><table><thead><tr><th>Property</th><th>Serratiopeptidase 1mg/kg</th><th>Paracetamol+Ibuprofen 80mg/kg</th></tr></thead><tbody><tr><td>Analgesic</td><td>~38%</td><td>~45%</td></tr><tr><td>Anti-inflammatory</td><td>~42%</td><td>~25%</td></tr></tbody></table><p>A study comparing analgesic & anti-inflammatory activity of Serratiopeptidase with Paracetamol -Ibuprofen combination in mice showed that Serratiopeptidase was more potent in both categories</p></div>	Property	Serratiopeptidase 1mg/kg	Paracetamol+Ibuprofen 80mg/kg	Analgesic	~38%	~45%	Anti-inflammatory	~42%	~25%
Property	Serratiopeptidase 1mg/kg	Paracetamol+Ibuprofen 80mg/kg										
Analgesic	~38%	~45%										
Anti-inflammatory	~42%	~25%										

Anti-Inflammatory & Wound Healing	Anti-Inflammatory Support (Trypsin Chymotrypsin - A Time tested Enzyme Supplement for Anti-Inflammatory Support)	Enteric-coated Swallowable Tablet	<p>Trypsin and Chymotrypsin are endogenous digestive enzymes produced and released by the pancreas. Both enzymes function within the intestine to help break down large protein molecules that we ingest in the foods we eat. Trypsin Chymotrypsin reduces inflammation and edema due to the dissolution of soft fibrin and due to the clearance of proteinaceous debris found in inflammatory exudates.</p> <p>Trypsin Chymotrypsin shows 3-way action:</p> <p>Fibrinolytic: Facilitates the action of plasmin necessary to open up blocked micro circulation, resolve edema, hematoma and pain</p> <p>Vascular Response Modulator: Increases levels of APRs (Acute Phase Reactants) which are known to inhibit necrotic damage caused by proteases</p> <p>Cytokines modulator: Modulates the cytokine functions which reduce pro-inflammatory mediators and fasten the healing process.</p> <p>Trypsin Chymotrypsin when consumed in unprotected form is destroyed by acid in the stomach. However, enteric-coating of tablet, enable the enzyme to pass through the stomach unchanged, and be absorbed in the intestine.</p> <p>Benefits:</p> <p>Useful in promoting the healing of muscle injuries such as sprains and strains.</p> <p>Help to improve the symptoms of rheumatoid arthritis.</p> <p>Trypsin chymotrypsin is used as debriding agent for clearing of necrotic wounds, ulcers, sinuses and fistulas.</p> <p>Enhance the effect of the co-prescribed antibiotics.</p>
	An Enzyme Supplement for Wound Healing (Trypsin Bromelain Rutoside Trihydrate (TBR))	Swallowable Tablets, Dispersible Tablets, Capsules	<p>Trypsin, Bromelain, Rutoside Trihydrate tablet is a synergistic combination of systemic enzymes & Phytonutrient . It helps to support body's natural anti-inflammatory action. It induces migration of neutrophils at the site of acute inflammation that helps in decreasing inflammation in colonic regions; Rutoside trihydrate causes inhibition of Vascular Endothelial Growth Factor (VEGF) which helps to reduce oxidative damage and angiogenesis.</p> <p>Benefits:</p> <p>Useful in promoting the healing of muscle injuries such as sprains and strains.</p> <p>Supports the body's natural anti-inflammatory response</p> <p>Increases Flexibility and Mobility</p> <p>Supports Joint and Tendon Health</p> <p>Enhance the effect of the co-prescribed antibiotics.</p> <p>Dispersible tablet allows quick onset of action & improves bioavailability.</p> <p>Suitable for patients and geriatric population with swallowing difficulties.</p>
	A Combination Supplement for Two-way Wound Healing Support	Swallowable Tablet, Capsules	<p>TBR + Diclofenac sodium is a potent combination of systemic enzymes, Phytonutrient & NSAID which helps in management of major trauma, wound healing and in reducing healing time in its unique two way action. Firstly TBR induces migration of neutrophils at the site of acute inflammation that helps in decreasing inflammation in colonic regions; Rutoside Trihydrate causes inhibition of Vascular Endothelial Growth Factor (VEGF) which helps to reduce oxidative damage and angiogenesis.</p> <p>Its second action is through Diclofenac sodium, which is a non-steroidal anti-inflammatory drug (NSAID) taken to reduce inflammation and as an analgesic reducing pain in certain conditions. Diclofenac is used commonly to treat mild to moderate post-operative or post-traumatic pain. Diclofenac is used to treat inflammatory disorders like musculoskeletal complaints, especially arthritis, rheumatoid arthritis, polymyositis, dermatomyositis, osteoarthritis, dental pain, spondylarthritis, ankylosing spondylitis, gout attacks, and pain management in cases of kidney stones and gallstones.</p>

Anti-Inflammatory & Wound Healing	Anti-Inflammatory + Wound Healing (Support for Healthy Joint Functions, Circulation and Body's natural response to Inflammation)	Swallowable Tablets, Dispersible Tablets, Capsules	<p>Chronic inflammatory joint conditions, wounds and injuries are becoming a big concern in today's times all over the world. Injuries have a long recovery process and they limit the exchange of nutrients and oxygen in the body and cause an increase in pain and inflammation. The most important thing that our systemic proteolytic enzymes help to do is to break down excess fibrin in the circulatory system and in the other connective tissue, such as the muscles. These enzymes help to bring nutrients and oxygen-rich blood that remove the metabolic waste produced by inflammation and excess fibrin. Proteolytic enzymes help to reduce the pain response that appears to arise from two mechanisms. First, the enzymes aid in neutralizing inflammatory mediators, such as the kinins and prostaglandins which stimulate nerve pain receptors. Second, by promoting the breakdown of plasma proteins and immune complexes and stimulating phagocytosis, the edema and associated pain (due to fluid pressure) is also supported.</p> <p>This Novel Formulation is a unique blend of proteolytic enzymes that has anti-inflammatory effect. The formulation possesses high stability and activity under a broader range of pH conditions. This Novel Formulation in capsule form contains Bacterial protease, Papain, Bromelain, Vitamin-C, Rutin. It helps to reinforce the body's defense mechanisms. This Novel Formulation could be used as a natural, side-effect free anti-inflammatory supplement.</p>
IMMUNITY BUILDER	An Enzyme Supplement for support during Cancer Therapy	Capsules	<p>This Novel Formulation a polyanzyme combination contains microbial protease like Bacterial protease, Fungal protease & plant protease like Papain & Bromelain. It can be used as dietary supplement in cancer therapy to minimize radiotherapy and chemotherapy induced side effects like nausea, vomiting, fatigue, epitheliolysis, immunosuppression, memory or concentration disorder, depression. Proteolytic enzymes present in this exert a number of the interesting anticancer mechanisms including inhibition of metastasis (spread of the cancer) and the enhancement of immune response. It as a dietary supplement in cancer therapy helps to down-regulation of the immunosuppressive cytokine TGF-β, & support in inhibition of tumour cell growth.</p>
	General Immunity (Immunomodulatory Supplement for Enhanced Immunity & support during Infections)	Capsules, Swallowable tablets	<p>Immunity is the defense mechanism of the body - the ability to fight against the pathogens or foreign material. The immune response is a complex mechanism involving many factors, and pathways. Immunomodulators are the compounds which accelerate the process. Usually, the antimicrobial effect of an antibiotic is commonly used for the treatment of infections. But widespread and indiscriminate use of antibiotics has confounded the problem of their efficacy as a result of microbial resistance. Besides, antibiotics have numerous side effects and toxicities. Therefore, there is a constant need for looking for new ways to combat infections.</p> <p>This Novel Formulation is a combination of Lactoferrin and Lysozyme which not only has immunomodulatory properties but also gives support during infections. Lysozyme in combination with Lactoferrin, as in It works synergistically such that Lactoferrin damages the outer membrane of bacteria thereby increasing penetration of Lysozyme. This makes it effective and potent against a wide range of infections.</p>
CIRCULATORY HEALTH	Supplement for enhancing Circulatory Health	Capsules	<p>Cardiovascular diseases are the number one cause of death globally. Cardiac diseases such as heart attack and stroke are caused due to formation of blood clots. Blood has a sticky quality in form of fibrin strands or thin, web-like structure that helps it clot and stop the bleeding from wounds. Research has established that these fibrin strands sometimes become main cause of sluggish blood, so researchers next began looking for a substance that would act to maintain healthy levels of fibrin so that blood flows at a faster rate, reducing blood pressure and cholesterol levels.</p> <p>This Novel Formulation is a safe dietary supplement, containing Nattokinase as an active principle. It is a natural, food-based supplement that supports healthier fibrin levels. Cerokinase can be excellent supplement for circulatory health and shows strong antioxidant activity as well.</p>

STRESS MANAGEMENT	An Enzyme Supplement for Stress Management & Natural healing	Capsules	<p>This Novel Formulation is a special blend of ingredients designed to support body's natural healing process and eradicate free radicals that cause stress. Free radicals are molecules which affect the cells, leading to stress and degenerative diseases. Antioxidants scavenge free radicals and protect the cells from further damage. The bacterial protease in it reduces soreness and Grape seed extract exhibits anti-oxidative properties that neutralize free radicals and promote healthy circulation. The B vitamins are important in several functions of the body including blood production, immune function and nerve function. Withania-somnifera reduces elevated stress hormones like cortisol and also has a calming effect on the central nervous system. This is an excellent supplement which relieves stress and fatigue for today's hectic lifestyle.</p>
SNORING RELIEF	An Enzyme Supplement to help relieve Snoring	Capsules	<p>Mucus is a beneficial protein created by the body to protect vital organs. It also helps in expelling pathogens from the body. During sleep, the muscles of the throat relax and the airway from the nose to the larynx becomes smaller. Anything that further reduces the airway like mucus, excessive or swollen tissue in the throat, will promote snoring. It is a unique combination of Mucolase and Glycyrrhiza glabra which reduces excess congestion and clears nasal and respiratory passages. Glycyrrhiza glabra is an excellent natural herb for treating throat congestions, coughs and other respiratory disorders. Mucolase inhibits histamine production and breaks down the mucus which blocks the airway during breathing. Thus, this formulation helps to open up sinus passages by relieving sinus congestion and thus leads to smooth breathing and less snoring. This one is all-natural with no side-effects.</p>
GUM HEALTH	An Enzyme Supplement for maintaining Healthy Gums	Capsules	<p>Gum infection or gingivitis is a widespread public health problem and is the first stage of periodontal infections. If neglected, gingivitis may lead to advanced periodontitis- a condition that loosens teeth. This gel is a sugar-free, gum health formula containing Glucose oxidase and Lysozyme. This Novel Formulation works with various mechanisms to inhibit and reduce bacterial growth. Lysozyme attacks cell wall of bacteria and Glucose Oxidase scavenges oxygen molecules required for their survival and multiplication. It provides an effective protection against harmful microorganisms associated with periodontal diseases by reducing inflammation and improving the overall gum health.</p>
WEIGHT MANAGEMENT	An Enzyme based formulation for effective Weight Management	Capsules	<p>This is a unique formulation which consists of non-animal source enzyme and natural herbs, formulated to aid in successful weight management. Lipase in Slim-N-Slender digests unwanted fats, Embllica officinalis acts as an effective antioxidant and a source of vitamin C, and Garcinia controls appetite and lowers serum triglycerides.</p>
DE-WORMING	A Natural Enzyme De-Wormer (Adults & Pediatrics)	Chewable Tablet, Swallowable Tablet, Capsules, Dry Syrup	<p>This Novel Formulation is a vegetative systemic enzyme formulation that helps reinforce the body's optimal balance of gastro-intestine system and control the parasites. This is composed of proteolytic enzyme such as Papain along with beneficial probiotics such as lactic acid producing bacteria. Papain is used as a de-wormer as it breaks down proteins and dissolves the cell wall of the parasites. Lactobacillus spores help to regulate the pH and intestinal micro flora. By altering the pH of the large intestine to a slightly more acidic level, putrefactive bacteria (those potentially detrimental to good health and increasing foul wind production) tend to be inhibited or destroyed.</p>
HEALTHY BONES & JOINT FUNCTION	An Enzyme Supplement for Arthritis	Capsules	<p>This Novel Formulation helps to rebuild degenerated cartilage, increases flexibility, mobility, and range of motion. It features a broad spectrum of high potency joint-support nutrients such as Glucosamine, MSM and Bacterial proteases with a blend of complementary calcium ascorbate.</p> <p>Glucosamine is a natural substance found in the body and is utilized in the production of tendons, ligaments and connective tissues within the body. It gives cartilage strength and resilience, allowing it to stretch and then resume its normal form as the joints moves.</p> <p>MSM supports healthy connective tissues, such as tendons and muscles. It has a unique action on body tissues by decreasing the pressure inside the cells. It also assists in removing fluids and toxins from the cells. MSM may offer a safe, non-toxic way to relieve osteoarthritis pain effectively. Bacterial protease helps in reducing inflammation and pain by acting synergistically with Glucosamine and MSM.</p> <p>This can be an effective natural solution for osteoarthritis and osteoporosis.</p>
